

D.P. Story

Attaching and Linking

www.acrotex.net

Welcome to [target2.pdf](#).

Now, return to [parent document](#)

Jump to the other attached file [target1.pdf](#)

1. Target Section

This is target2.pdf, you should have arrived here via a child-to-child link from target1.pdf. This is a test of `\ahyperref`. And **return!**

One this page, we'll create a hypertarget. We'll test child to child jumping to a destination using `\ahyperlink`. And **return!**
